

- **Clinical* data only (C)** – apply through data request form. Also available through dbGAP. UDS data also available through NACC.
- **Clinical* + genetic data (C+B2)** – apply through data request form. Will be provided with secondary de-identification (“distribution ID”; D-ID)
- **Biospecimens (B) with clinical minimal data set (MDS) (C2)** – apply through biospecimen request form (blinded until results returned).
- **Biospecimens (B) + clinical (C) + genetic (B2) data** – both data request and biospecimen request forms must be completed. NCRAD and A/L data management will work together to create clinical data set with matching secondary de-identifiers (D-ID) Clinical data distribution may be delayed until biospecimen analyses results are returned.
- **Imaging data (I) with clinical minimal data set (MDS) (C2)** – available through LONI (eventually). Provided with secondary de-identifiers (D-ID).
- **Imaging data (I) + clinical (C) + genetic (B2) data.** Apply through data request form. A/L data management provide data with secondary de-identifiers (D-ID) that match LONI IDs for downloads.

* Includes demographic, functional, clinical, neuropsych evaluations

Data wanted: Clinical

NACC
UDS
FTLD module

Request data from NACC
<https://www.alz.washington.edu/>

- Data file with:
- NACC ID#
 - Requested clinical data (associated with each NACC ID#)

A/L Data Request Form
https://ucsf.co1.qualtrics.com/jfe/form/SV_e4BBGMiXV7HRTg1

ARTFL-LEFFTDS
Data Management Committee

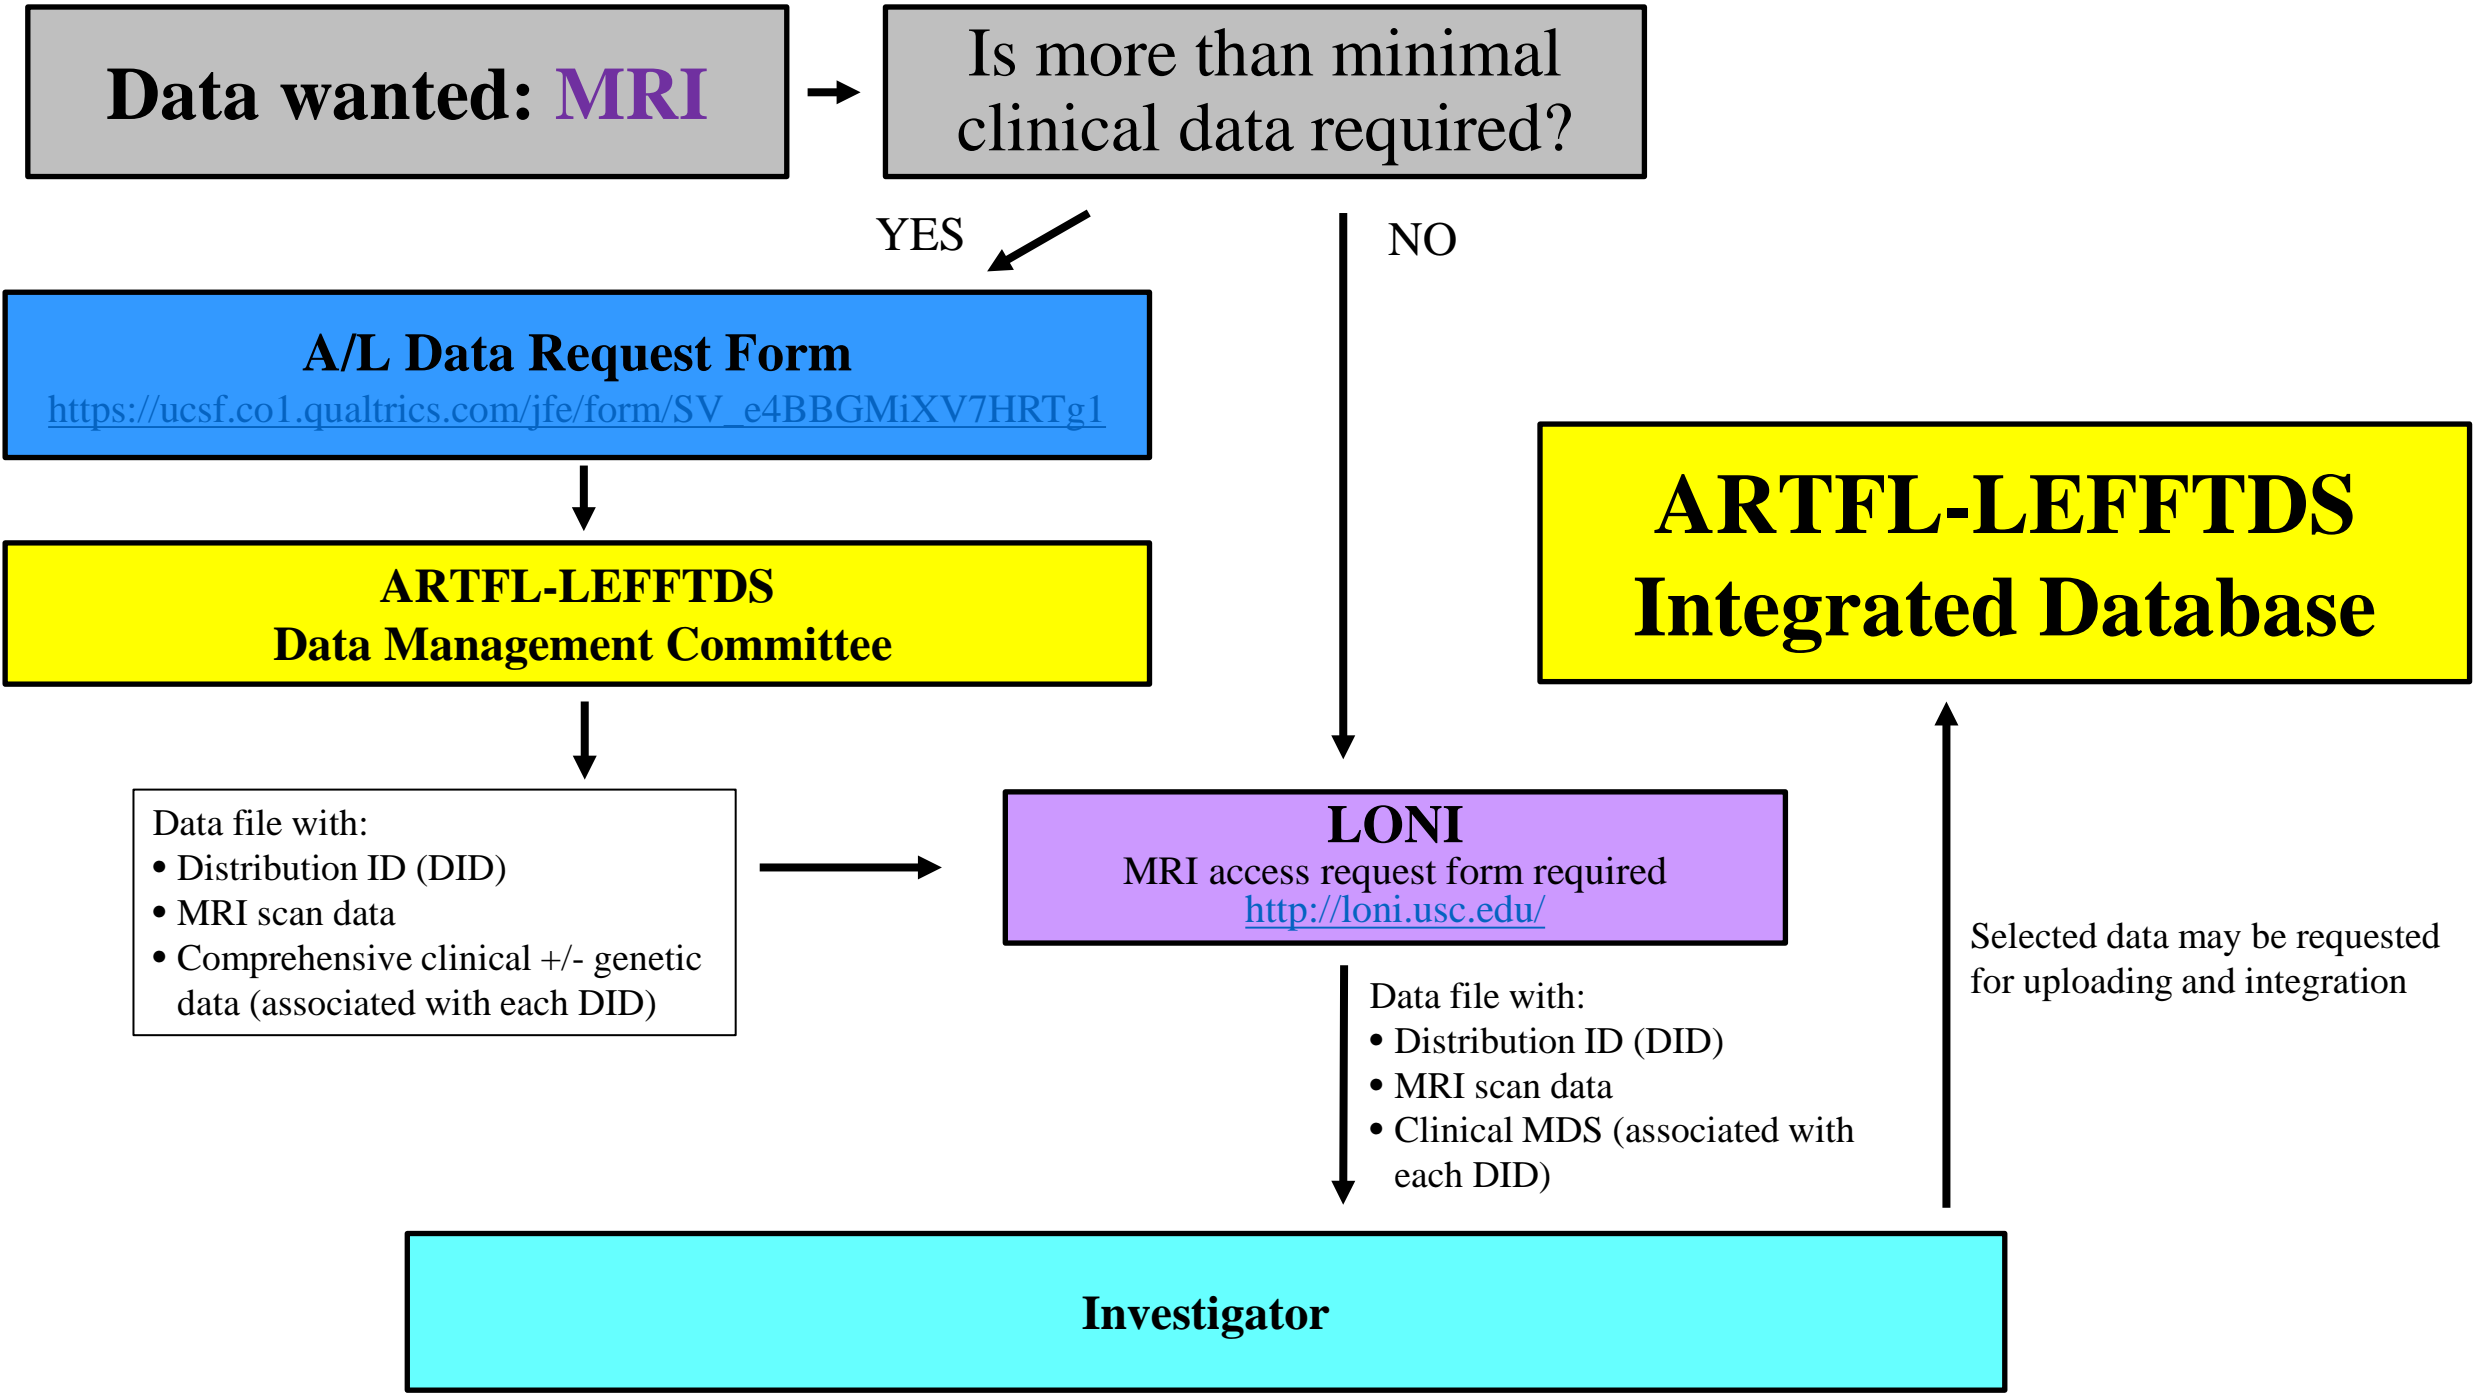

- Data file with:
- DID#
 - Requested clinical +/- genetic data (associated with each DID#)

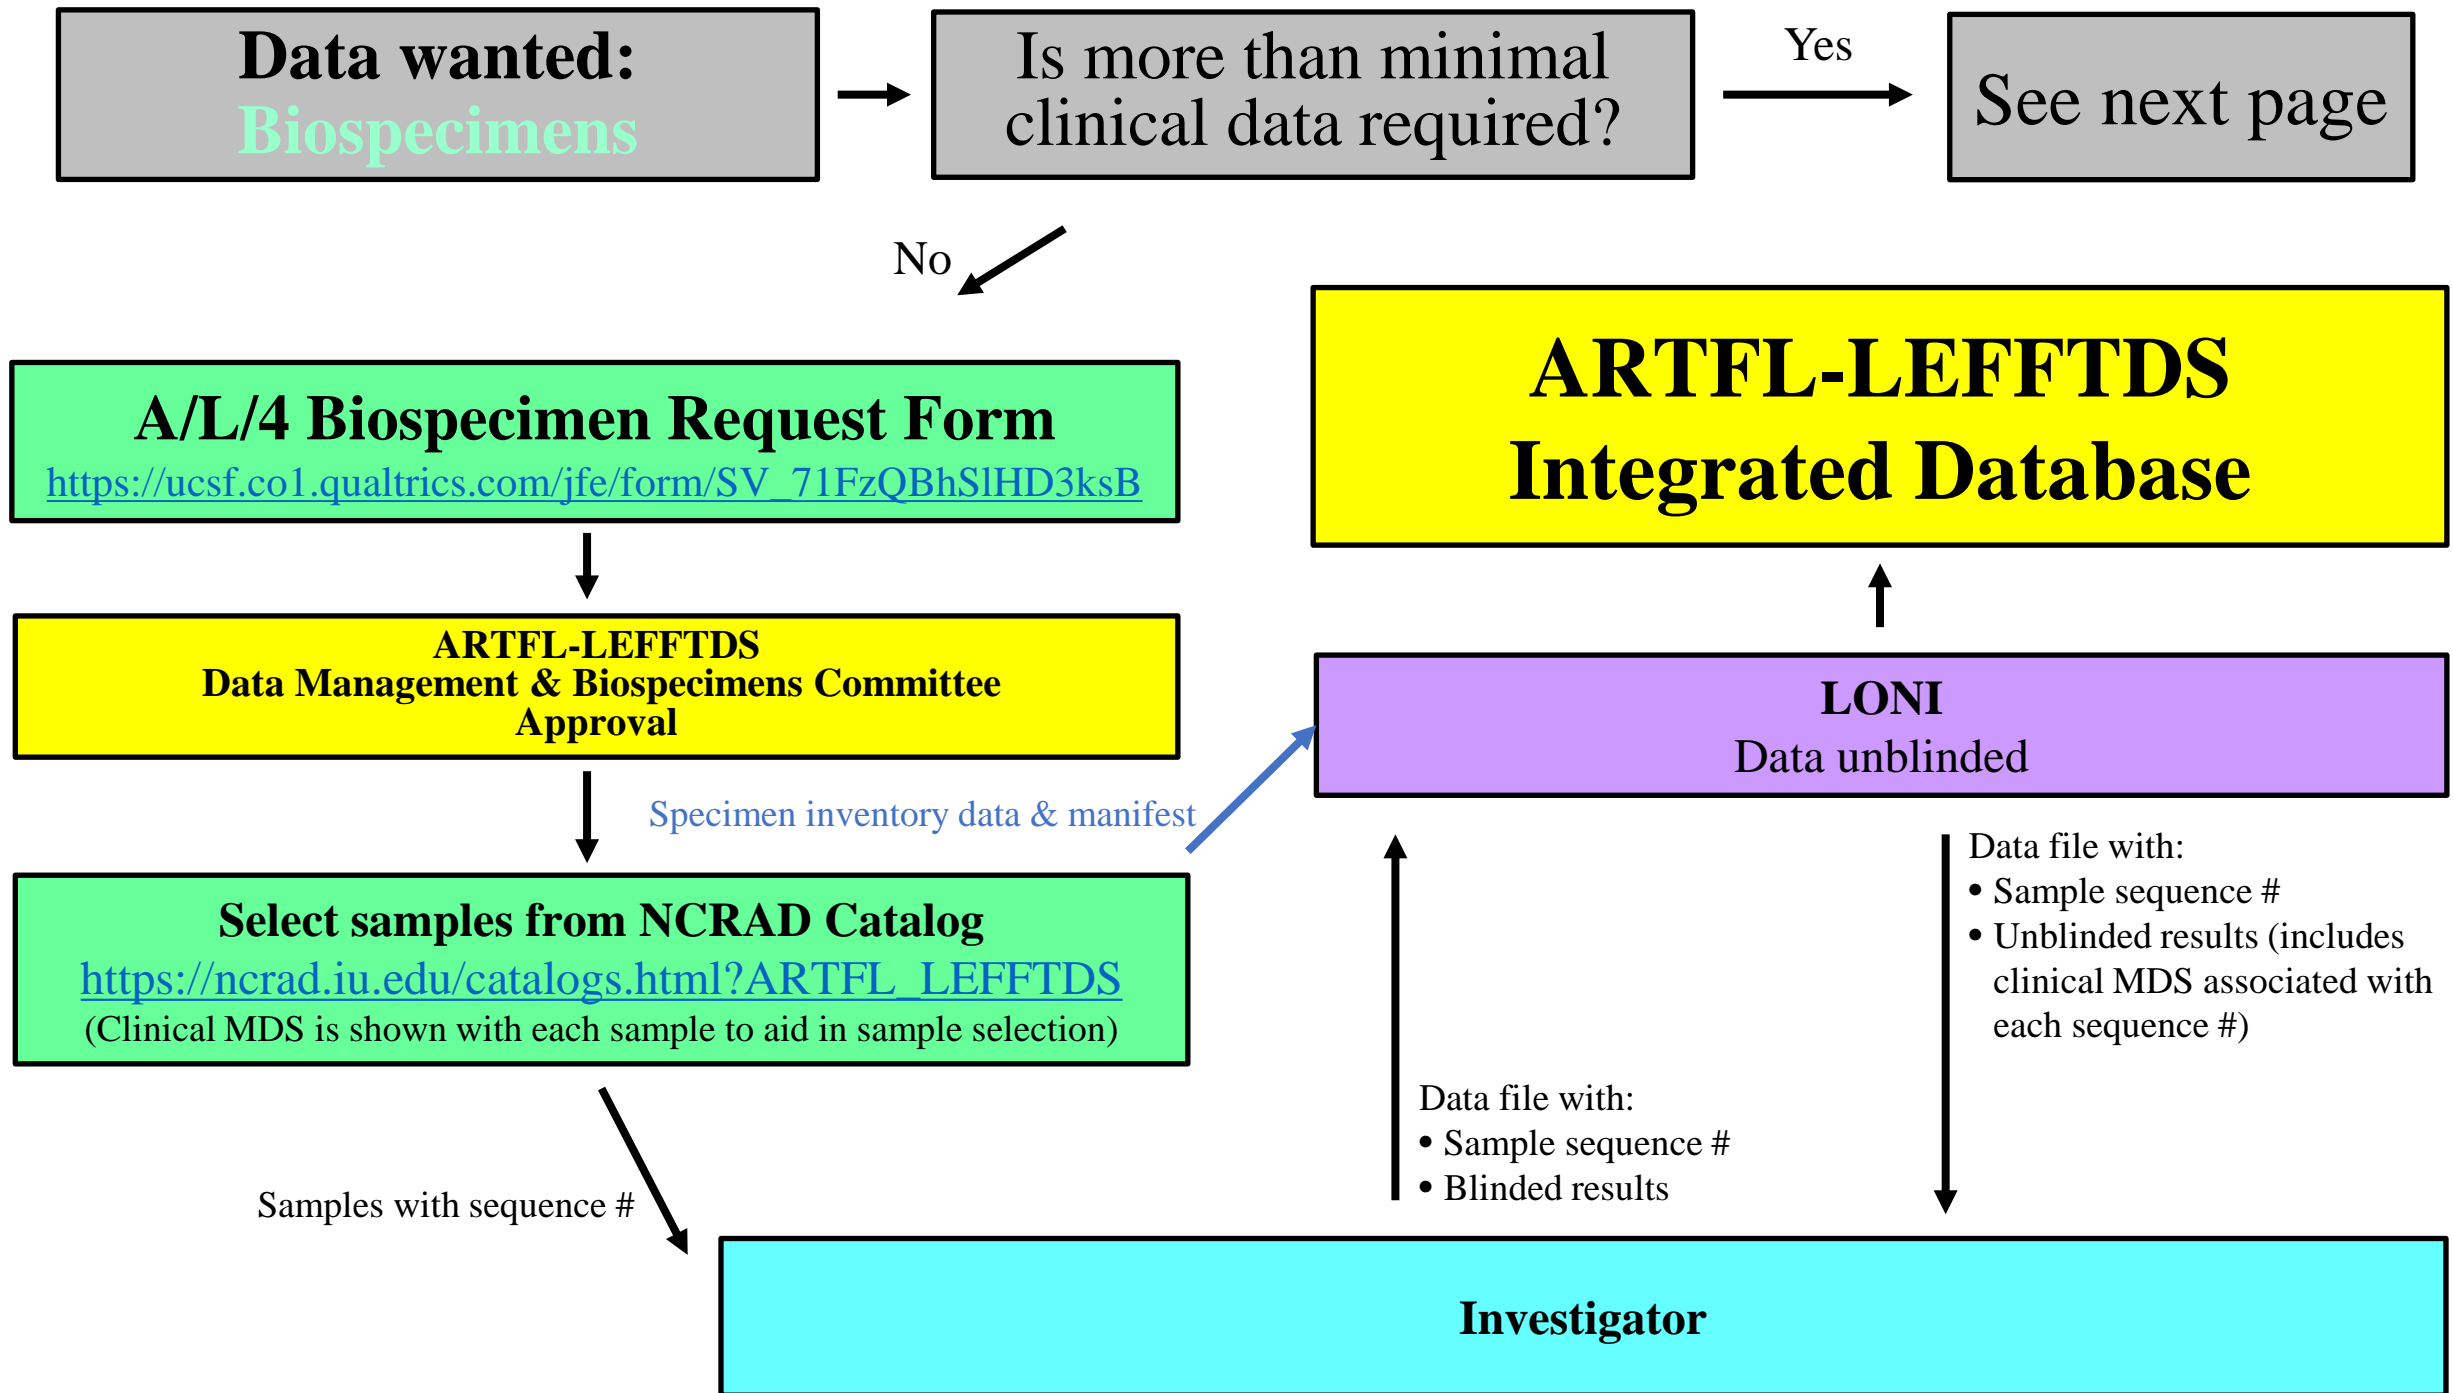

ARTFL-LEFFTDS
Integrated Database

↑ Selected data may be requested for uploading and integration

Investigator

Data wanted:
Biospecimens

Is more than minimal
clinical data required?

YES

A/L Data Request Form

https://ucsf.co1.qualtrics.com/jfe/form/SV_e4BBGMiXV7HRTg1

+

A/L/4 Biospecimen Request Form

https://ucsf.co1.qualtrics.com/jfe/form/SV_71FzQBhSIHD3ksB

ARTFL-LEFFTDS

Data Management & Biospecimens Committee

Select samples from NCRAD Catalog

https://ncrad.iu.edu/catalogs.html?ARTFL_LEFFTDS

(Clinical MDS is shown with each sample to aid in sample selection)

Samples with sequence #

Investigator

**ARTFL-LEFFTDS
Integrated Database**

LONI
Data unblinded

Data file with:
• Sample sequence #
• Blinded results

Data file with:
• Sample sequence #
• Unblinded results (includes
comprehensive clinical +/-
genetic data associated with
each sequence #)
• Clinical data may be delayed
until this unblinding occurs.
